

Faith Lutheran Kindergarten

April 2017

Hi 2017 Families,

We have some very exciting news, QLECS and Faith Lutheran Kindergarten are implementing a new program in 2017 called Xplor!!

Xplor is a program designed specifically for early childhood education, by early childhood educators. It allows families and educators to communicate instantly, and share information about the children.

Xplor will allow each child to have a secure, private profile, which can be accessed at any time from your smart device. It will notify you when our educators add new information such as observations, photos, examples of work, or videos and will allow our educators to send brief messages to our families. It will also allow for more sharing between home and Kindy as you will be able to comment, make suggestions and share experiences that are happening at home with us here at the Kindy. You will receive updates about your child's day while you are at work and will be able to see what they are doing, and how they are going.

Xplor will allow you to sign in and out electronically, this is the first part of our roll out to parents.

The staff are still also learning this new program so you will see them doing some onsite training. They will keep you informed as they start to become more familiar with the system.

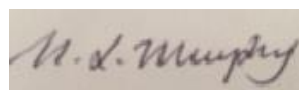

We have attached a copy of an email you will receive shortly from Xplor to get you started. We have also attached other information that will help get you started on your Xplor journey with the family.

We are very excited to be a part of this new initiative and look forward to seeing the benefits Xplor brings to both our educators and families!

Kind Regards

Christine Hartung
Children's Services Manager

Naomi Murphy
Service Leader/Teacher
